1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Julie Daulton (Applicant's Representative) on 08 May 2006.

#### IN THE CLAIMS

Claim 64 has been cancelled.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a mold assembly for use in forming a concrete block as defined in the claims of the instant application. The closest prior art is disclosed by Bergeron et al. (U.S. Pat. No. 5,249,950), which was discussed in the previous Office Action.

Bergeron does not teach a second wall of the mold with a movably mounted converging side wall portion as recited in claims 24 and 65. Moreover, given the structure disclosed by

Art Unit: 1722

Bergeron as shown for example in Figure 4, there would not appear to be any reason or suggestion for the reference to be modified as such to comprise such a side wall portion, nor does it appear that the structure could be modified in such a manner without destroying other of the apparatus features.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
